OBJECTIVE

Ambitious full-stack web developer eager to make my mark in the field of computer science. Passionate in crafting accessible and user-friendly web applications that enhance the overall user experience. Through UNC Charlotte Boot Camp, I am equipped with the fundamental skills to create responsive applications. My skill set encompasses web design, project management, coding, debugging, and more. I thrive both in collaborative team environments and in self-directed projects, consistently striving for excellence in every endeavor.
